Auction

The Pen

- This pen was sister to the pens first handed out by Michael W Lucas for free at BSDCan 3 years ago. Lucas offered this pen for the auction, and was purchased after a fierce battle for CA\$80.
- Kirk McKusick also used the pen to sign the "Design and Implementation of BSD" book sold at the auction.
- This pen was brought back to last year's BSDCan, and was won by the same person for CA\$40.
- Earlier this year it was the star of the best-seller "Git Commit Murder", which is clearly not about the BSDCan conference.
- Bid Early, Bid Often!
